

Meeting the Needs of Young Members through Student Branches

A few months ago, the credit union received approval from the State of Ohio to offer membership to students of **any** educational entity within Lorain County. We've now partnered with the Elyria City School District to open three student branches in 2012:

Tuesday, Jan. 24	Grand Opening – Westwood Middle School Branch
Thursday, Jan. 26	Grand Opening – Northwood Middle School Branch
Wednesday, Feb. 1	Grand Opening – Elyria High School Branch

We're very excited about this opportunity to help younger members reach their personal financial goals. SELCCU offers accounts specifically for younger members of any age: Captain Cash Club: For children up to age 12; Make Money Matter (M3): Ages 13-17; and Young Adult: Ages 18-25.

After a student joins, immediate family members* are also eligible for credit union membership. In addition to low (or no) fees, competitive dividends on savings products and generally lower rates on loans and credit cards, we're part of Shared Branching (a network of more than 4,400 credit unions across the U.S. where you can conduct transactions), we have a network of 50,000 surcharge-free ATMs across the country, and free online banking services. For more information or to open an account, please stop in or call 440-324-3400 / 800-451-6315.

**Immediate family is defined as spouse, children, stepchildren, parents, stepparents, siblings, stepsisters, stepbrothers, grandparents, grandchildren, stepgrandchildren, and mother-in-law and father-in-law.*
